

R-Pharm Germany GmbH Illertissen EHS-Leitlinien

It is the mission of R-Pharm Germany in Illertissen to be one of the most outstanding manufacturer, packer and developer of pharmaceuticals and food supplements, thereby helping to improve the health and quality of human lives. We focus on safety, health and environmental protection as well as the responsible use of energy resources. In all our activities we take social and economic factors as well as environmental factors into account.

Our goal is to,

- to comply with legal provisions and regulations as well as other requirements and international agreements We are prepared to take measures that go beyond compliance with legal and official requirements, if we consider them necessary on our own responsibility, weighing up ecological and economic concerns.
- to achieve continuous improvement of our energy and integrated EHS management system and to subject it to regular audits in order to meet international standards.
- to create a corporate culture in which safety, health, environmental protection (EHS) and the conscious use of energy are integrated into all activities. This can only be achieved through the active cooperation of all employees. Therefore, we want to inform and educate our employees so well that they can actively assume co-responsibility and thus consult and involve employees and their representatives.
- to lead the company as a responsible member of society. We are committed to continuously improving the use of energy resources and our EHS performance.
- to provide our employees with a safe and healthy working environment and to prevent injuries and incidents by appropriate technical or organizational measures and to eliminate or minimize hazards and risks at work.
- to deal economically with natural resources and to minimize the impact on the environment. Therefore, we strive in our production to take advantage of existing opportunities to avoid pollutant and noise emissions, to save energy and water, to avoid, reduce or recycle waste.
- to conduct an open and objective dialogue with authorities, business partners, neighbours and the interested public about the environmental policy of our company and to be open to suggestions for improvement.
- to consider – as far as possible and economically feasible - ecological criteria in the procurement of our raw and auxiliary materials, as well as in the purchase of services to support improvement of energy performance and consciously give preference to suppliers or service providers who give EHS a similarly high priority as we do.
- to provide all resources necessary to achieve the strategic and operational objectives relating to occupational health and safety, energy and environmental policy, and to ensure the availability of the necessary information

This EHS Policy is set by the Management Board and applies to all employees and all activities of R-Pharm Germany GmbH in Illertissen. Compliance with this policy and the EHS standards are mandatory.
